Providing HELP, HOPE and a HOME for hurting women.

## New Building Update

**Tabitha Ministry has a wonderful problem – We don't have enough space to accommodate all of the residents who are on pace to graduate in 2026!!**

Our founder, Cindi Wagner, saw this problem coming back in 2019 when she launched a capital campaign to construct another building on campus, but the campaign was placed on hold after her unexpected passing in 2021. Our residential program serves six women at a time, and then new graduates are invited to stay on property up to another year in our transition program as they work out employment, transportation, and housing. Like the resident house, the graduate house also has three bedrooms and two bathrooms, but the graduate house also houses two on-property staff, which means we are about to run out of space!!

The Board has approved moving forward this year with constructing a new building, ideally by the end of the summer so we don't have to make tough decisions about which new graduates can continue to the transition program.

Here is what we envision building:

- **Lower level:** Large multipurpose room for resident classes, including exercise classes; much-needed storage space; and bathroom.
- **Upper level:** Two small apartments for on-property staff.

Thanks to many generous donors, we have already raised some of the funds needed to construct the new building, but more will be needed. We are also seeking donations of building materials and volunteers to help with the construction.
